

Company name: Logic4training

Centre: Luton

Assessment carried out by: Caroline Lay

Centre Manager: Kevin Green

Date assessment was originally carried out: 20th May 2020

Issue: 1.6 (please see last page for reviews)

HSE

As an employer, you must protect people from harm. This includes taking reasonable steps to protect your workers and others from coronavirus. This is called a COVID-19 risk assessment and it'll help you manage risk and protect people. You must:

- identify what work activity or situations might cause transmission of the virus
- think about who could be at risk
- □ decide how likely it is that someone could be exposed
- act to remove the activity or situation, or if this isn't possible, control the risk

When completing your assessment make sure you talk to your workers and their representatives to explain the measures you are taking. They can also provide valuable information on how you could control the risks.

You can use this document to help you make sure you have covered what you need to keep workers and others safe. Once you have completed your risk assessment you will also have to monitor to make sure that what you have put in place is working as expected.

More information on working safely during the coronavirus outbreak.

HSE's core guidance on managing risk.

In the UK some rules such as social distancing may be different in each of the devolved nations. However, HSE regulates in all of these countries. You should check the public health guidance for the country you are in:

- □ <u>Wales</u>
- □ <u>England</u>
- Scotland

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Getting or spreading coronavirus by not washing hands or not washing them adequately	Workers Customers Contractors Drivers coming to your business	 Hygiene Water, soap and drying facilities are available at wash stations. Hand washing guidance also advises drying hands with disposable paper towels. All washrooms have been installed with disposable towels. Additional hand sanitising stations have been set up throughout the centre including access to 70% Alcohol based hand gel. There is sufficient toilet and hand washing facilities available for the maximum capacity of the centres further details below. Luton Centre Toilet/Washroom Facilities Ground Floor Separate male and female toilet facilities are available on the ground floor at the rear of the building. Male toilet 1 has 2 cubicles and 2 sinks with access to water, soap and drying facilities. The female / Disabled toilet is located to the front of the building close to the entrance and has 1 toilet cubicle and 1 sink with access to water, soap and drying facilities. 	Tollowed.	Centre Manager is responsible for the continuous monitoring of control measures. All staff, Customers and Contractors are responsible for following the guidelines and reporting any issues should they arise.	Controls are currently in place and are monitored by the Centre Manager. No further action is currently required. Control measures should be monitored and continued by the Centre Manager.
		 First Floor Separate male and female toilet facilities are also available on the first floor at the rear of the building. The male toilet has 1 toilet cubicle, 1 urinal and 2 sinks with access to water, soap and drying facilities. The female toilet has 2 toilet cubicles and 2 sinks with access to water, soap and drying facilities. 	 Staff are encouraged to protect their skin and avoid dry cracked skin from hand washing by using moisturising hand creams as recommended by the NHS. 		On-going
		 5 Additional hand sanitising stations have been installed at the centre including access to 70% alcohol based hand sanitiser, located throughout the centre, servicing the classrooms, workshops and canteen. 		Domestic	On-going

		 Stringent hand washing is advised and guidance posters including visuals on how to wash your hands as per NHS guidance has been placed above sinks in washrooms and next to hand sanitising gel dispensers. All staff received 2 days briefing and training on the covid-19 guidelines, risk assessment and covid secure controls on 28th & 29th May 2020 prior to centres re-opening. All staff are made aware of updates to this risk assessment. 		HR & Compliance Manager Centre Manager Line Managers Workers	On-going supervision and monitoring required
What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Getting or spreading coronavirus by allowing delivery drivers to use welfare facilities.	Delivery Drivers Visitors Drivers going out for your business	 There's a legal duty to provide welfare facilities and washing facilities for visiting drivers. The centre does not have regular deliveries. Deliveries to the centre are currently limited to mandatory business requirements only. As per the legal requirement, should a driver require the use of such facilities they shall be allowed to use the toilet and wash facilities at the entrance of the building. The driver will be required to abide by the covid-19 centre rules including confirming they have no symptoms of covid-19, using the hand sanitiser at the 	- Keep up to date with legal duty on providing welfare facilities to visiting drivers.	Centre Manager	As and when updates occur. (Currently part of the .gov mailing list for updates)

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Getting or spreading coronavirus in common use high traffic areas such as on arrival, canteens, corridors, rest rooms, toilet facilities, entry/exit points to facilities, changing rooms and other communal areas	Workers Customers Visitors Contractors Drivers coming to your business	 Reception/Arrival A large carpark provides free parking to candidates and staff. A new arrival process has been implemented to minimise contact and support social distancing guidelines. Candidates are now greeted outside at a safe distance. Candidates are advised not to congregate around the front door but to wait in their vehicle until their trainer comes out side to collect them. Each tutor will come out one at a time to collect separate groups, they will be wearing facemasks and keep a safe distance, register the candidate on their register, and ask the candidate to sanitise their hands using the sanitiser in the entrance before being lead directly up to their classroom. Prior to arrival the course booker receives PDF file in advance providing relevant information candidates should be aware of before arrival, this includes; social distancing arrangements and the use of face-masks, lunch, water and hygiene arrangements and rescheduling the booking should the candidate have symptoms of covid-19 as they will not be permitted access. Notification posters are displayed which reminds candidates (as per the advance booker PDF file) to wear a face-mask. Face- masks are also available for purchase for a small fee at the centre. Information on how to put on a face-mask safely is displayed at with access to sanitiser. A new logic4training pen will be provided to candidates who have not brought their own pen once they are in their classroom for them to keep, to further mitigate the risk of covid-19 spreading through the use of shared pens. The trainer completes the candidate induction form with their candidates which covers covid-19 centres rules, staggered refreshment breaks and centre H&S processes. 	- Staff to report near-misses which may also help identify where controls cannot be followed or people are not doing what they should be doing.	Centre Manager is responsible for the continuous monitoring of control measures. All staff, Customers and Contractors are responsible for following the guidelines and reporting any issues should they arise. Domestic Assistant	All controls are currently in place and are monitored by the Centre Manager. . Control measures should be monitored and continued by the Centre Manager Checked daily and replenished as needed. Checked weekly and ordered as required

Getting or spreading coronavirus in Classrooms	Workers Customers Visitors Contractors	Inside the building Classrooms -Washbasins with soap and disposable towels are available on both the ground floor and first floor within a reasonable distance to the classrooms. Hand sanitising dispensers with antibacterial 70% alcohol based hand gel has also been installed as per above. -2 metre distancing tape is visual on the floor leading to classrooms plus 2 metre distancing posters. - Class sizes have been reduced to allow for 1 metre between candidate desks depending upon the classroom size and course requirements. (Since the UK governments review on the social distance length, the classroom desks are arranged to meet the minimum 1 metre distance guidance.)	- Ongoing monitoring and supervision to make sure people are following controls put in place.	Trainers Assessors Centre Manager HR & Compliance Manager	Continuous monitoring is required.
		 Perspex screens have also been installed between desks to further mitigate the risk of covid-19 spreading in classrooms. Learners are taught via the trainer and PowerPoints displayed on the TV's at the front of the classroom. As per the recommendation to implement further mitigating factors, desks between candidates have been arranged side by side. This does not distract from the trainer/assessor at the front of the classroom. Candidates are required to wear a face-mask inside the building. (Candidates can bring their own face-mask but can also purchase one from the front of the building for a small fee) Where handouts and/or manuals are required as per the course programme and cannot be taught via the electronic board, these will be placed on the desks prior to the session and trainers will use the hand sanitising gel before putting the handouts on the desk. Pen sharing is not permitted. Candidates are provided with a new 			
		 pen at the start of their course. The classrooms with access to windows that open out to outdoor fresh air will be opened to increase fresh air circulation. Non-fire doors are open to increase air flow. Classes have regular staggered breaks throughout the day. 20 minutes in the morning staggered from 10am, 30 minutes at lunch time staggered from 12pm and 20 minutes in the afternoon staggered from 2pm. 	-Trainers/ Assessors advise candidates of their breaks before the course commences.	Trainers Assessors	Daily
		 Trainers / Assessor inform their classes of their daily break times. Cleaning hours have been increased at each centre, allowing for increased frequency of cleaning procedures. Classrooms are cleaned daily using appropriate antibacterial cleaning products. Classrooms are rigorously cleaned every day as per covid-19 	 Cleaning product stock counts 	Domestic Assistant	Weekly

		 cleaning guidance for non-healthcare settings. Candidates will be designated the same desk in their classroom for the duration of their course. Desks are cleaned daily using appropriate antibacterial products. The centre manager spot checks classrooms to ensure it is completed to acceptable standards. 	Centre Manager to look out for this on daily opening walk	Centre Manager	Weekly
		 Trainers must wear a face-mask inside the building. Trainers will then fit a clear face-shield when they arrive in the classroom and are a safe 1 metre distance from all candidates and then remove the face-mask. (The Trainer will wear a clear face-visor whilst teaching at the front of their class not a face-mask whilst teaching.) Trainers are required to wear a face-mask before leaving the classroom and within all inside areas of the building. 	- Spare tape is kept on site to	Centre Manager	Daily

	products and between uses.			
	Candidates are advised to use the new outdoor hot drink hut and			

		 take their free take away hot drink away with them rather than congregate in the canteen. For social distancing purposes the canteen is mainly reserved for candidates who do not have their own vehicle to take away their hot drink to and therefore will be made available to candidates who travel by public transport. Candidates are advised to get their free take away tea or coffee from the outdoor hut where possible rather than use the canteen. The canteen is monitored regularly by the domestic assistant. The domestic assistant is qualified in food hygiene and safety. 			
Getting or spreading coronavirus in staircases.	Workers Customers Contractors	with government guidelines. Stairs - There are four internal stair cases that lead up to the first floor. - The stair cases are well lit with sufficient lighting and emergency lighting in place			
	Visitors	 Handrails are at the appropriate height. Steps have good slip resistant properties, particularly at the leading edge Stairs are free from trip hazards 2 metre distancing posters or tape is in place to remind candidates to keep a safe distance from each other Stairs cases are of an adequate width for the number of person in the building at any given time 	-On-going feedback from Trainers and Assessor to continue.	Trainers Assessors	Continuous monitoring required
		 Handrails are cleaned regularly throughout the day Stairs are checked for slips hazards daily. Candidate groups are lead in one at a time in the morning. Breaks are staggered No one is allowed to congregate on stairs or in corridors. 	-On-going feedback from candidates to continue	Customer Service Manager	Continuous monitoring required
Getting or spreading	Workers Customers	Practical Workshops -Washbasins with soap and disposable towels are available on both the ground floor and first floor within a reasonable distance to			
coronavirus in practical workshop.	Contractors	the practical workshops. Hand sanitising dispensers with antibacterial 70% alcohol based hand gel has also been installed as per above. -2 metre distancing tape is visual on the floor leading to workshops plus 2 metre distancing posters. - Class sizes have been reduced to allow social distancing as much as reasonably practical.	- Sanitisation of face-shields to be recorded on the face-shield cleaning checklist.	Trainers Assessors	Continuous monitoring required

- Candidates are required to wear a face-mask at all times in the practical workshop (Candidates can bring their own face-mask- Centre managers to carry out but can also purchase one from the front of the building for a small regular spot checks of controls. fee)	anager Continuous monitoring required
-As per the recommendation to implement further mitigating factors, candidates are provided with face-shields in the practical	required
areas depending upon the task. - Candidates can use their own employer's face-shields or can use	
those provided by the centre. The face-shields provided by the centre are re-usable by the candidate for the duration of their	
course. -The face-shield is cleaned using the recommended Isopropyl	
between each use. - Where PPE is already a requirement for risks associated with the	
work undertaken in practical areas these will continue.	
 Disposable gloves are readily available in the circumstances where the course programme uses hand held tools. Please note 	
as per above; where PPE is already a requirement for risks	
associated with the work being undertaken in practical areas these	
will supersede the disposable gloves.	
 Disposable gloves are to be used once only and new ones are 	
readily available.	
- Disposable gloves are to be removed before leaving the practical	
workshop and hands sanitised. (It is not recommended that anyone	
should walk around the centre wearing gloves as this prevents you	
from washing your hands.) - Tools are cleaned after each use with appropriate antibacterial	
products.	
- Pen sharing is not permitted. Candidates are provided with a new	
pen at the start of their course and a replacement provided if	
necessary.	
- All Trainers are Qualified AET Trainers.	
- All Assessors are qualified A1/TAQA/CAVA Assessors and are	
registered and approved with the appropriate awarding	
body/qualification regulator.

depending upon the workshop size and course requirements.	

Getting or spreading coronavirus in smoking area.	Workers Customers Visitors Contractors	 There are a number of first aid qualified employees including management + an acceptable number of first aid kits and supplies available throughout the centres workshops, classrooms and offices. PPE poster reminders are clearly visible in prominent areas reminding candidates what PPE must be worn. Trainers supervise candidates at all times in practical areas. Outdoor Smoking Area There is an outdoor designated smoking area. 2 Metre distancing posters are visible in the smoking area. Hand sanitiser is available in the centre leading out to the smoking area with signage informing persons to use it. A free standing cigarette bin is in place which is emptied and cleaned daily Good housekeeping is practised at all times. The smoking area is outside and there is adequate space to keep 2 metre distance from other persons. Break times are staggered. 	 Administrators to report any concerns or if issues arise to HR & Compliance Manager. Centre team to have regular catch ups and talk openly with Centre Manager & Compliance Manager 	All staff All staff Centre Manager	Continuous on- going monitoring and feedback
Getting or spreading coronavirus in Customer Service office.	Workers Customers Visitors Contractors	 Admin Office Hand sanitising dispenser with antibacterial 70% alcohol based hand gel is in reception. Poster advising persons to use the hand sanitising gel before access. Hand sanitiser has also been provided on administrator's desk. The office is next to the disabled toilet/washroom facilities at the front of the building providing soap, water and suitable hand drying facilities. "Please stand here and maintain social distancing" is visual on the floor. (Floor marker for customers to stand a 2 metre distance from the administrator.) 2 metre distancing posters are visible. Office capacity has been reduced to ensure less people in the office at any given time to ensure social distancing can be maintained. The administrator only allows 1 candidate in the office at a time. As per the recommendation to implement further mitigating factors, desks have been arranged side by side where possible. Perspex screens have also been installed between desks to further mitigate the risk of covid-19 spreading in the office. 	- Course payment reminders in place and monitored by accounts team	Accounts Assistant	Weekly

What are W the hazards?	/ho might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
		 All Candidates are required to wear a facemask in the office. (Candidates can bring their own face-mask but can also purchase one from the front of the building for a small fee) CS teams and Admin teams are required to wear a face-mask throughout the building. Once they are sat behind their Perspex screen at their desk and socially distanced they can remove their face-mask and work at their desk. They must wear a facemask when moving from their desk. Pen sharing is not permitted. Sharing stationary is not permitted and each staff member has been provided with the tools necessary to carry out their work. Where payments are required, we ask for all payments to be paid before the course start date. The centre ask for card payment where possible. The card payment machine is wiped with a disinfection wipe between uses. If cash is the only option, disposable gloves are available for use by the customer service team. The office is well ventilated by windows and the administrator has been advised to open the window every morning and close it before they go home. Cleaning hours have been increased at the centre, allowing for increased frequency of cleaning procedures. The office is cleaned daily using appropriate antibacterial cleaning products. All staff sanitise their own desk at the end of every day. The centre manager spot checks the office to ensure ongoing compliance. Microsoft teams has been purchased by the centre to allow for online meetings. Non fire exit doors are open to reduce the amount of contact and also improve ventilation. 	- Managements review meetings via video conferencing.	Director	Monthly

Getting or spreading coronavirus through workers living together and/or travelling to work together	Workers	 Staff do not live together. Staff do not travel together. A large car park is available free of charge for staff and customers. 	- If staff arrangements for living or traveling to work change they must inform their line manager before sharing accommodation or traveling to work together so a discussion can take place on how to reduce the risk of getting or spreading the coronavirus.	- Staff - Line manager - HR & Compliance Manager	- On-going monitoring required	
---	---------	---	--	--	--------------------------------------	--

hazards? Getting or spreading coronavirus by not cleaning surfaces, equipment and workstations	Workers Customers Visitors Contractors Drivers coming to your business	 Ase Cleaning guidance on <u>cleaning and hygiene during the</u> <u>coronavirus outbreak</u> is being followed A cleaner is on site during operational hours. Cleaning hours have been increased. Frequency of cleaning regimes increased. Staff have been provided with relevant PPE needed to carry out the tasks including gloves, face-shields, aprons and face-masks. Staff have been trained in how to put on and remove the PPE that is used for their normal work tasks and hazards and how to keep it clean and when to replace with new. 	 It is recommended ongoing monitoring is to continue by the centre manager. Cleaners to report if any issues arise immediately. Re-fresher training when 	Centre Manager Cleaners Centre manager	by? - On-going - Continuous feedback - On-going
		 are kept on personal files. The government cleaning guidance for non-healthcare settings has been reviewed and training completed with cleaners. Appropriate cleaning products are used and relevant COSHH and MSDS retained and updated on site. A comprehensive cleaning regime was found to be in place at the centre including regular cleaning of surfaces that are frequently touched; e.g. handrails, door handles, toilets and washbasins and taps All areas of the centre are cleaned daily by trained domestic assistants. Toilets/Washrooms are cleaned three times a day. Classrooms are cleaned daily at the end of each session. 			

- Corridors are cleaned daily, non-fire doors are open where	
possible and door handles cleaned three times a day.	
- The need to move around the centre has been reduced as far	
reasonably practical to reduce the potential spread of any	
contamination through touched surfaces.	
- Bins are in place in all classrooms, office and workshops and	
emptied daily.	
- If a location is identified as an area of high risk due to the	
possibility of an infected person being in that location. The area will	
be closed and a deep clean will take place.	
- Surfaces are to be kept clear to allow for easier cleaning and	
prevent contaminated objects.	

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Contractin g or spreading the coronaviru s by not social distancing	Workers Customers Visitors Contractor Drivers coming to your business	 Facemasks are worn inside the building. Staff have received relevant training on the covid-19 social distancing requirements. Candidates are informed in writing before arrival. Candidates are re-explained in detail about the covid-19 social distancing requirements in place at the centre during their induction on their first morning and sign the induction form. All persons are reminded by way of visual posters throughout the training centre All persons are reminded by way of floor marker tapes throughout the centre. Staff and Candidates break times have been staggered. Staff who can work from home are working from home to limit the number of persons on site at one time. Allocated times lots are in place for courses. All work areas have been rearranged to allow people to meet social distancing rules as reasonably practical whilst inside the centre. A bike rack is available for cyclists to lock their bike at the front of the building 	 Kernesher training/information disseminated to staff. Signage updates and ways to communicate to non-employees what they need to do to maintain social distancing. 	Trainers Assessors Centre Manager	- Continuous monitoring and ongoing
Getting or spreading coronaviru s from visitors.	Workers Customers Visitors Contractor Drivers coming to your business	 Visitors Arrangements for preventing the requirement for a visitor to attend the centre in person are in place as far as reasonably practical. Visitors must pre-book visits if the visit is necessary. Meetings will take place via video conference on all occasions possible to prevent the need for visitors during this time. If a visitor must attend the centre they will be subject to the same covid19 rules as candidates and briefed before arrival and on arrival. Maintenance works will be scheduled out of hours (OOH) when centre is closed after 5pm or on weekends. Staff who's roles/tasks can be completed from home, are working from home. Qualification regulator audits scheduled in advance and where possible will now take place via video conference Pre booking for courses only.

Musculoskelet al disorders as a result of using DSE at home for a long period of time	Workers	 Homeworkers have been provided with information on how to set up workstations at home. DSE questionnaires are completed. Recommended actions are implemented on the completion of the DSE questionnaire. For all people working at home using display screen equipment (DSE) information on how to protect themselves, eg take regular breaks, stretching exercises has been communicated. 	 Regular discussions on the DSE set up should be implemented to ensure safe on-going practise. For people working at home longer term complete a DSE assessment with them and identify what equipment is needed to allow them to work safely at home for longer period. 	Line Managers	Ongoing monitoring

Poor workplace ventilation leading to risks of coronavirus spreading	Workers Customers Visitors Contractor	 Offices are well ventilated by fresh air through windows. Classrooms 1 – 5 have windows which must be opened when the classrooms are in use and closed at the end of every day for natural fresh air ventilation. The centre manager has confirmed rooms 6, 7, smart power and smart gas are serviced by an extract system both supply and extract. Non fire doors are open to increase ventilation in areas of the building that lack windows. As above candidates wear facemasks inside the building to further mitigate the risk of coronavirus spreading indoors. 	- Maintain air circulation systems in line with manufacturers' recommendations.	Centre Manager	Annually

Increased risk of infection and complications for vulnerable workers	Workers	All staff are advised to follow government guidelines and recommendations for vulnerable and extremely vulnerable persons. This includes if a staff member receives a shielding letter they must stay home and every effort will be made for them to work from home unless their GP advises otherwise.	 Open two way conversation between line managers and staff. Concerns raised to HR immediately 	Line Managers	On-going

		- Advice from medical professionals followed at all times.			
		 Open conversations with staff about self-isolating. 			
		Vulnerable staff encouraged to share concerns with line manager or hr manager and seek medical professional advice.			
		No employees have been forced back to work and all medical professional advice followed on an individual basis.			
		- Staff encouraged to inform HR of any changes to their health that may make them more susceptible to the coronavirus.			
		- Any staff who receive shielding letter are advised to provide the letter to HR and shield in line with government guidelines.			
		 Vulnerable workers reasonable adjustments put in place following medical professional advice to further reduce risk of contracting coronavirus 			
		- Staff who can work from home should continue to do so.			
Risk of catching coronavirus from not wearing a facemask due to exemption.	The candidate The candidates classmates	 It is currently mandatory to wear a facemask inside the private training centre. Candidates who have received a shielding letter or have been advised by a medical professional that they are especially susceptible to coronavirus should follow government guidelines and stay home and can reschedule their course with the customer service team via telephone. Candidates who are exempt from wearing a facemask should still do so inside the building if they can safely. If the candidate is exempt and cannot wear a facemask then they must contact the centre prior to their course start date and can wear a facevisor instead but they must wear an exempt badge and facevisor 	 Inform candidates prior to arrival. Ensure compliance before access to the building is given. 	CS Team Centre Manager Trainer & Assessors	On-going daily monitoring and notifications required.
		shield instead. - Candidates who arrive and do not have an exemption badge will not be allowed inside the building and therefore will not be able to attend their course.			

 All candidates required to follow the above stringent hygiene control measures. All candidates required to follow social distancing guidelines within the training centre. All candidate and trainer desks fitted with appropriate Perspex screens. All windows throughout the building are opened daily to increase ventilation. Candidates can wear a face-visor instead of a facemask only if they inform the centre prior to arrival and wear an exempt badge as detailed above.

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Not evacuating immediately due to following social distancing rules. Getting or spreading coronavirus in the event of an emergency evacuation.	Workers Customers Visitors Contractor	 Whilst control measures to protect against COVID-19 are crucial, fire safety should also remain a priority. If the fire alarm sounds, the fire evacuation procedure will be followed. All persons are not required to socially distance during a fire or other emergency evacuation and should evacuate without delay making use of all fire exits. All staff are trained in the fire evacuation procedure and full practise drills are completed as a minimum 6 monthly. Emergency evacuation drills have been re-briefed and drills taken place since re-opening of the centre since covid-19. (Trainers lead their class via the nearest and safest fire exit to the fire meeting point outside and do not wait to socially distance during an emergency evacuation, as evacuating the building is a priority. Candidates and staff will be wearing their face-mask inside the building and should continue to keep it on until they reach outside. Once outside at the fire meeting point candidates and staff are required to socially distance and keep 1+ metres away from others. There is sufficient space outside at the fire meeting point to socially distance during the roll call. Trainers will communicate with their class to ensure this is maintained. Trainers are to continue the normal fire evacuation procedures and roll calls. When the Centre Manager or fire services have given the all clear. One class at a time allowed back into the centre to allow for social distancing on re-entry. All staff and candidates must sanitise their hands when re-entering the building. Candidates are briefed on the fire evacuation procedure during their centre induction with their trainer and sign to complete the induction form. There is adequate fire signage in place which meets with current legislation including, fire running man signage which demostrates the direction of escape, emergency lighting illuminates escape routes. Floor plans clearly visible/displayed throughout the	PEEP plans will be completed for staff or candidates who notify us that they may need addition support evacuating the building.	Centre Manager HR & Compliance Manager	Continuous monitoring.
