

**Company name: Logic4training** 

**Centre: Sittingbourne** 

Assessment carried out by: Caroline Lay

**Centre Manager: Phil Hickey** 

Date assessment was originally carried out: 20th May 2020

**Issue: 1.6** (please see last page for reviews)

## HSE

As an employer, you must protect people from harm. This includes taking reasonable steps to protect your workers and others from coronavirus. This is called a COVID-19 risk assessment and it'll help you manage risk and protect people. You must:

- identify what work activity or situations might cause transmission of the virus
- think about who could be at risk
- □ decide how likely it is that someone could be exposed
- act to remove the activity or situation, or if this isn't possible, control the risk

When completing your assessment make sure you talk to your workers and their representatives to explain the measures you are taking. They can also provide valuable information on how you could control the risks.

You can use this document to help you make sure you have covered what you need to keep workers and others safe. Once you have completed your risk assessment you will also have to monitor to make sure that what you have put in place is working as expected.

More information on working safely during the coronavirus outbreak.

HSE's core guidance on managing risk.

In the UK some rules such as social distancing may be different in each of the devolved nations. However, HSE regulates in all of these countries. You should check the public health guidance for the country you are in:

- □ <u>Wales</u>
- □ <u>England</u>
- Scotland

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?

-As per the recommendation to implement further mitigating	
factors, candidates are provided with face-shields in the practical	
areas depending upon the task. Trainer	rs
- Candidates can use their own employer's face-shields or can use- Sanitisation of face-shields to be	
those provided by the centre. The face-shields provided by the recorded on the face-shield Assess	ors
centre are re-usable by the candidate for the duration of their cleaning checklist.	
course.	Continuous
-The face-shield is cleaned using the recommended Isopropyl	monitoring
between each use.	required
- Where PPE is already a requirement for risks associated with the Centre managers to carry out Centre Man	nager
work undertaken in practical areas these will continue. regular spot checks of controls.	
- Disposable gloves are readily available in the circumstances	
where the course programme uses hand held tools. Please note	
as per above; where PPE is already a requirement for risks	
associated with the work being undertaken in practical areas these	
will supersede the disposable gloves.	
- Disposable gloves are to be used once only and new ones are	
readily available.	
- Disposable gloves are to be removed before leaving the practical	
workshop and hands sanitised. (It is not recommended that anyone	
should walk around the centre wearing gloves as this prevents you	
from washing your hands.)	
- Tools are cleaned after each use with appropriate antibacterial	
products.	
- Pen sharing is not permitted. Candidates are provided with a new	
pen at the start of their course and a replacement provided if	
necessary.	
- All Trainers are Qualified AET Trainers.	
- All Assessors are gualified A1/TAQA/CAVA Assessors and are	
registered and approved with the appropriate awarding	
body/qualification regulator.	
- All Trainers and Assessors are qualified and experienced within	
their scope of training and assessment.	
- All Trainers complete a full H&S Induction with the Centre	
Manager or HR and Compliance Manager.	
- All Candidates complete a H&S induction this includes, safe	
working practice, covid-19 centre rules, fire brief and location of	
stop buttons before commencing any practical training.	
- Class sizes have been reduced to allow for social distancing	
depending upon the workshop size and course requirements.	
- There are a number of first aid qualified employees including	
management + an acceptable number of first aid kits and supplies	
available throughout the centres workshops, classrooms and	
offices.

What are the hazards?	Who might be harmed and how?	Controls	What further action do you need to consider to control the risks?	Who needs to carry out the action?	When is the action needed by?
Not evacuating immediately due to following social distancing rules. Getting or spreading coronavirus in the event of an emergency evacuation.	Workers Customers Visitors Contractor	<ul> <li>Whilst control measures to protect against COVID-19 are crucial, fire safety should also remain a priority.</li> <li>If the fire alarm sounds, the fire evacuation procedure will be followed.</li> <li>All persons are not required to socially distance during a fire or other emergency evacuation and should evacuate without delay making use of all fire exits.</li> <li>All staff are trained in the fire evacuation procedure and full practise drills are completely as a minimum 6 monthly. Emergency evacuation drills have been re-briefed and drills taken place since re-opening of the centre since covid-19. (Trainers lead their class via the nearest and safest fire exit to the fire meeting point outside and do not wait to socially distance during an emergency evacuation, as evacuating the building is a priority.</li> <li>Candidates and staff will be wearing their face-mask inside the building and should continue to keep it on until they reach outside.</li> <li>Once outside at the fire meeting point candidates and staff are required to socially distance and keep 2 metres away from others. There is sufficient space outside at the fire meeting point to socially distance during the roll call. Trainers will communicate with their class to ensure this is maintained.</li> <li>Trainers are to continue the normal fire evacuation procedures and roll calls.</li> <li>When the Centre Manager or fire services have given the all clear. One class at a time allowed back into the centre to allow for social distancing on re-entry.</li> <li>All staff and candidates must sanitise their hands when re-entering the building.</li> <li>Candidates are briefed on the fire evacuation procedure during their centre induction with their trainer and sign to complete the induction form.</li> <li>There is adequate fire signage in place which meets with current legislation including, fire running man signage which demonstrates</li> </ul>	- PEEP plans		Continuous monitoring.
		the direction of escape, emergency lighting illuminates escape routes. Floor plans clearly visible/displayed throughout the building in all classrooms and workshops leading persons to the fire exits.
